## Careers, education, information and guidance - Employer Information

Here at Sidmouth College, we value our engagement with all businesses to help us inform and educate our students about careers and labour market information

Covering areas such as:

- Encounters with Employers through year specific events
- Work experience

We plan events to enable businesses to interact with students in each year group to support students' development of skills as they progress through school to ensure they have an understanding of opportunities and are able to make decisions about post 16 opportunities.

As a school we ensure that we meet the Gatsby benchmarks which are the national framework for Careers education.

If you would like to get involved, or wish to advertise any vacancies, apprenticeship vacancies through our school, then please contact.

Nicki Young MCDI RCDP

Careers Leader
